Exhibition Stands, Conference Sets, Shell Schemes & Displays, Large Format Graphics & Modular Displays

Welcome again to the new edition of JP's Newsletter where we keep you informed to all that's happening in and around JP Temple Ltd.

From Russia with Love!

"JP have just returned from another successful trip to Russia where we have completed a project for Prysmian, as they continue to increase their international exposure"

JP were commissioned to design and build a series of stands for Prysmian by a local design agency, whom we work closely with. The design brief highlighted the need to be flexible and to pack relatively small as it was required in at least four separate exhibitions in as many countries.

A successful stand was designed, installed and shipped to all required destinations - and the feedback we have received confirms the stand as an out right winner.

Banking on brilliance!

"Once again working closely with Rob Shirley at Transcity Exhibitions we have been commissioned to design and build a number of stands for blue chip companies at a selection of the worlds top banking shows"

With a working relationship spanning 25 years it's a relationship that has continued to grow and grow, and this year proves to be no exception.

At present three clients have been confirmed at Eurofinance in Barcelona, four stands at SIBOS, Vienna and we have recently completed another four at ACT, Edinborough. All great locations and we're thrilled to have secured the tender once again. We know we can't get complacent and every year we strive to go above and beyond what is required because we know that blue chip companies require a blue chip service.

An ethos we apply to all our clients large or small!

New Faces

"With the recent retirement of Dave Rowdene and Pauline Chandler both long life members of the JP Family, new openings have arisen"

With the dawning of Dave Rowdene's 65th birthday, many of us at JP really feared for Dave's sanity that once he no longer had a bench full of pieces of wood to knock together he wouldn't know what to do with himself. But it seems that even after 20 years service to JP, retirement suits him just fine, and with more time for fishing and seeing his granddaughter he actually seems to be busier than ever.

Pauline took retirement at the beginning of the year to spend more time in and amongst the flowers of her garden, and her expertise in the accounts office will be sorely missed.

With the departure of Pauline an opening was available for the right person. With big shoes to fill it was always going to be a tough job, but we feel we have it right, with Rachael we have found a perfect replacement and with her previous experience at Audi and Ford has plenty of top class pedigree.
